

PRODUCT DESCRIPTION

Eco Chemical's True Blue Stain Concentrate is a super concentrated stain to indicate lumber that has been treated with Borate solution. It contains durable pigments that won't fade from UV exposure.

This super concentrated product is suggested to for use with Borate treatments, for adding color in solution. Provides a deep blue color that will last.

- Non-Flammable
- No danger of spontaneous combustion due to solvent-soaked rags
- Low odor and virtually no fumes
- Long lasting color
- VOC compliant
- Very easy to use

Recommended use: Identify Borate treated wood by using a Blue stain. Suitable for pressure treated softwoods.

APPLICATION INSTRUCTIONS

1. Make sure the material to be coated is thoroughly clean, dry and free of contaminants such as dirt, dust and fungi.
2. Prepare Borate treatment solution.
3. Stir Blue Stain concentrate well.
4. Mix Borate solution to blue stain at a suggested 600:1 dilution ratio.
5. Apply at temperatures above 45° F.
6. Clean tools and equipment with warm, soapy water immediately after use.

STORAGE

Store in a cool, dry place. Close container after each use. **KEEP FROM FREEZING.**

DISPOSAL

Never pour leftover material down any drain or sink. Use up material on the job, or seal container and store safely for future use. Do not incinerate closed containers. For specific disposal guidelines, contact your local waste management agency.
